

It's the clear choice.

Give them crystal clear lenses, more comfort from screen time and eye protection all in one with Clear Blue Filter™.

CLEAR BLUE FILTER™

POWERED BY SCIENCE

Blocks 100% of UV (400nm) and filters damaging high-energy blue light rays.

SAFE FOR YOUNG EYES

Children are 70% more susceptible to high-energy blue light transmitted to a child's retina.³

PROTECTION BY DESIGN

Safety is built into the lens, not the coating. Widely available in both SFSV and FSV.

SKIN CANCER FOUNDATION SEAL OF APPROVAL

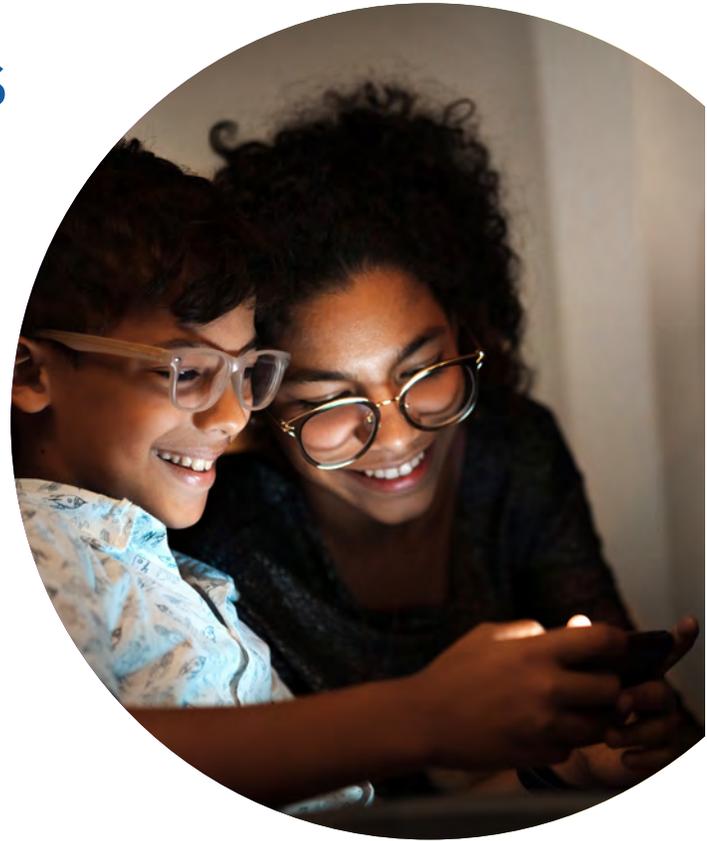

Recommended as an effective UV filter for the eyes and surrounding skin.

Give your customers the best protection.

Block UVB/UVA rays and filter the most damaging, highest-energy blue light with Clear Blue Filter™.

Provide comfort from sunlight, screen time and other everyday activities. And help safeguard eyes from cataracts, macular degeneration and other serious conditions linked to UV and high-energy blue light.^{1,2}

Availability

Style	Material	Diameter (mm)	Power Range	Bases	CYL/Adds
SFSV HC	Poly	75mm		0.50, 1.00, 2.00, 3.00, 4.00, 5.25, 6.25, 7.50, 8.50, 9.75	
FSV HC	Poly	Spherical 65mm, 75mm	+4.00 to -8.00		out to a -2.00 cyl
A FSV Super-Hydro Vivid AR	Poly	Aspheric 65mm, 75mm	+4.00 to -6.00		out to a -2.00 cyl
SFSV HC	Plastic 1.50	75mm		0.50, 1.25, 2.25, 3.25, 4.25, 5.25, 6.25, 7.25, 8.25, 9.25	
FSV HC	Plastic 1.50	70mm	+4.00 to -6.00		out to a -2.00 cyl
