Simply outstanding progressive lenses

Easy to Explain, Easy to Prescribe, Easy to Adapt.

Things couldn't get any clearer than with iD Lifestyle 3 progressive lenses using Hoya's patented Integrated Dual Surface Design that shapes lenses exclusively for the way your patients view the world. iD Lifestyle 3 is Hoya's latest design, maximizing both sides of the lens to offer wide and clear fields of view.

The iD Lifestyle 3 has three convenient options, each designed to match your patient's lifestyle to ensure the best vision at all times.

Indoor

Designed for presbyopes who spend a lot of their time indoors, looking at digital devices or reading.

Urban

Designed for presbyopes who are active, always on the go but also enjoy reading books and using their digital devices.

Outdoor

Designed for presbyopes who primarily wear their correction for distance use, but still require clear vision to see their phone and other near materials.
