

CUTTING-EDGE LIGHT REACTIVE LENS TECHNOLOGY

SPEED

When you move from outdoors to indoors, your glasses will adjust with the speed you desire.

INNOVATION

Even if you haven't seen yourself in light reactive lenses in the past, you will now.

Sensity Fast brings speed to the light reactive lens wearers experience, the result of extensive research and testing.

QUALITY

HOYA lenses are crafted by vision experts with a passion for making lenses. They even make lenses for NASA telescopes.

LENS AVAILABLE IN SILVER GREY

SPEED AND QUALITY

Sensity Fast is one of the fastest light reactive lenses, rapidly changing from dark to clear, eliminating that awkward in-between period that most other lenses have - for a seamless experience moving from outdoors to indoors.

LIGHT REACTIVE LENSES

WHY HOYA LIGHT REACTIVE LENSES?

Sensity Fast lenses respond to your environment, giving you the benefits of full vision correction and sun protection in a single pair of glasses.

STAY PROTECTED

Sensity Fast shields you from UV and blue light as you drive, work and enjoy activities throughout the day.

EXPERIENCE COMFORT

No more squinting or covering your eyes in the sun. Your lenses begin to darken as soon as you step outdoors.

FREE YOUR HANDS

Why hassle with carrying both eyeglasses and sunglasses? One less thing you have to worry about.

EXPRESS YOUR STYLE

Get the same high-quality lenses in any frame you choose, whether you prefer a classic aesthetic or the latest trends.
